Federal “Return of Title IV Aid” Policy
This policy applies to students who withdraw (officially, unofficially, or fail to return from a leave of absence) or are dismissed from enrollment at Wade College. It is separate and distinct from the Wade College Refund Policy contained in this catalog. The calculated amount of the “Return of Title IV Funds” that is required for students affected by this policy is determined according to the following definitions and procedures, as prescribed by regulation.

Though the student’s Title IV aid may be posted to his or her account at the start of each period, the student earns the funds as he or she completes the period. If the student withdraws during his or her payment period (the college can define the payment period for the student), the amount of Title IV aid that the student has earned to that point is determined by a specific formula. If the student received funds for the college or the student’s parent received on the student’s behalf less assistance than the amount that he or she earned, the student may be able to receive those additional funds. If the student received more assistance than he or she earned, the excess funds must be returned by the college and/or the student.

Wade College has 45 days from the date that official notification was provided to the student to determine the amount of R2T4 funds the student has earned at the time of withdrawal. After 60 days, the student’s R2T4 must still be performed to determine the amount of aid that the student has earned.

The student agrees that all information, ideas, or documents disclosed or submitted upon the understanding that the only obligation that the college has with respect to such information, ideas, or documents and any use of the same, is limited solely to claims for infringement of valid patents or failure to comply with copyright laws.

Both sides of this agreement constitute the entire Tuition and Enrollment Agreement.
